

Elafina is located in the northern side of the Pieria mountain range and administratively it belongs to the municipality of Veria, in the prefecture of Imathia.

At **1000 m above sea level**, over **Vergina**, it is 28 km far away from both Katerini and Veria. The Village looks out over **the Gulf of Thermaikos**, the city of **Thessaloniki** and the plain of Katerini.

The village is surrounded by a **dense forest** mostly with chestnut, beech and oak trees, where cold, clear water gushes out, indicative of the clear subsoil of the area.

The **climate** of the area is among the best in Europe, while the village is famous for the **longevity** of its inhabitants.

The village is familiar to many people who have been offered hospitality to “**Apostle Pavlos**” **institution camp**. The camp facilities are situated in the village, and they are by now, an integral part of the life in the small village.

Elafina has accommodated our guesthouse called “**Mouson Melathron**” since **2007**. The guesthouse was named after the **muses of Pieria**

In February of the same year it started accommodating its first guests...
